THE STORY OF A CABLE

How the Long Strings of Steel Will be Made.

TWENTY-EIGHT HUNDRED WIRES

Will Keep the Bridge From Falling Into the River—They Weigh 336,000 Pounds and if Put Together Would Be 800 Miles Long—A Few Facts.

Few people have the slightest conception of the vast amount of energy expended in the construction of a bridge such as that being built across the river, and in no better way can it be explained than in telling the story of the cable as it was given the NEWS REVIEW by F. H. Leaf, the engineer in charge of this part of the work.

"We have been almost four weeks preparing to make the cables," said Mr. Leaf, "and we hope to have all things in readiness to begin bright and early next Monday morning. It is a big job, in fact so large that the person not initiated into the mysteries of bridge building would think twice before he was not hearing of a fairy story if the real work was laid before him in words. You know we have first to prepare the dead men, as we all call the heavy anchors planted on the river bank. These are the supports for the ends of the cable. They are each made of four upright and six horizontal timbers, 12x12, and 18 feet long. They are planted on both sides with heavy two-inch planks, and well bolted together with the best iron obtainable. Then they are sunk into the ground 12 feet, and made to stand a tremendous strain. The timber is yellow pine, hemlock and oak, and there are three dead men at each end of the ground allotted for our task. They contain enough material, if it was sawed into commercial lumber, to build a house or barn larger than any you have in Columbiana county, and when the labor of making them is considered, are valuable.

"When the dead men are in place we begin the actual work of making the cable. The number of men employed is not large, for we can only do a given amount of labor at one time. The bridge proper is 1,455 long, and the cables will each be 1,515, the extra length being accounted for in the distance over the tops of the towers. What is technically known as No. 8 wire will be used, and there are 1,400 wires in each cable. These are put up in bunches of 200, and the bridge builder calls them strands. To make these the men will each walk 207 miles. When the bridge is completed these strands will be formed into the cable, and will bear an enormous weight. The wire is made of the toughest and strongest steel known to science, and is calculated to withstand the action of the elements for many years. We name the wire by the number it requires when placed side by side to make an inch, and calculation shows there will be just 800 miles of the size we use in the two cables, or if stretched in an air line it would reach almost from East Liverpool to Bryan's home in Nebraska. If it was possible to put it on scales, it would tip the beam at something like 168 tons, and have a little to spare. In making the cables our tests are accurate, and each one must stand a small matter of 2,100 tons before it is considered strong enough to bear the strain.

"Stretching the cable will be an interesting sight to those persons who realize the vast amount of strength tied up in an engine. We have already put one wire across the river, but that is only a very small part of the 2,800 that are to follow. The cable will be made in strands of 200 wires each. When four of these are finished one of those small engines, capable of great power yet looking anything but a giant, will be fastened to them by a lighter wire, and the steam will be turned on. The four strands will be stretched over each tower, and anchored on the big abutments. Then the remaining strands will be placed in position, and as far as we are concerned the bridge will be done. Of course there will be any quantity of work to do after the cables are stretched, but that will be done by another department.

"It is hard to tell the length of time required to make the cable, but if I am not mistaken we will have our work completed before the Rochester people are ready. They are now working on the cables."

Mr. Leaf is an old bridge builder of long experience, and his work has taken him to all parts of the country. He has grown accustomed to dizzy heights and perilous positions, but never relaxes his vigilance when up in the air. He has his force ready, and the first reels will be unrolled on Monday morning.

CHANGED HANDS.

The East End Pottery Sold to E. J. Owen and Augustus Trinle.

The announcement is made that E. J. Owen and Augustus Trinle have purchased the East End pottery, and will operate it with a full force.

The plant was built during the strike, \$1,170 in money and work and an acre of ground being donated by citizens. The stockholders were Sampson Turnbull, Augustus Trinle, James Shaw, A. Shaw, S. Turnbull, and J. M. Melius, and for various reasons the pottery never paid. There have been efforts and counter efforts to buy or sell, but nothing developed until yesterday evening, when the deal was closed. The consideration is private, but the entire stock was absorbed by the new owners. Mr. Owen will leave the position of manager at the Mountford pottery within two weeks, and will look after the business management of the East End. Mr. Trinle will be superintendent. The gentlemen are practical potters and can not but be successful. The ware made at the plant has always been of an excellent grade, and this will be maintained and if possible improved. At present the plant is only running with a small force, but when the new management takes hold every place will be filled.

TOMORROW.

Sports Committee of Labor Day Will Make Arrangements Known.

Trades council discussed matters pertaining to Labor Day last night, and heard the reports of the various committees who are actively engaged in the work. Sports committee said the members have been soliciting prizes from the business men, and have met with gratifying success. They will announce the events, where entries will be received, and the list of prizes tomorrow. William Ruhe, the well known glassworker, was made chief marshal of the parade, with power to appoint his own aides, and it was decided to have two bands in the procession. Matters are moving along nicely, and the celebration promises to be greater than ever.

WHIPPED HIS TORMENTORS.

One Boy Would Not Allow Imposition.

A fight occurred in Paradise alley last evening about 9 o'clock. A crowd of boys had been throwing grapes when they hit the wrong man in the person of Fred Owens, who promptly slapped Jack Robinson and offered to whip any two of the crowd. His offer was accepted by Timmy Stapleton and Robinson, and they repaired to the alley to fight it out. Stapleton was thrown on his head and began to cry. As soon as possible he ran, while Owens gave Robinson a good thrashing. It is safe to say the boys will be more careful in the future.

A M'KINLEY PARTY.

Miss Aggie Owen Is a Patriotic Young Lady.

Unique invitations have been received here for a McKinley party to be given by Miss Aggie Owen, daughter of Will Owen, the well known traveler of the East Palestine pottery. The invitation is a plain card, but in one corner is neatly tied a bunch of red, white and blue ribbon of the finest texture, and the announcement is made that Miss Owen will entertain at a McKinley party. Among those from this city who will attend are Miss Nellie Allison, Miss Osie Daniels, Charley Weaver and Robert Logan.

TRUTH AT A PREMIUM.

Alliance Can't Stick to the Plain Unvarnished.

East Liverpool people will appreciate the following from the Alliance Critic, and smile broadly:

"A new Bryan silver club has just been organized at East Liverpool, with Hon. A. H. Clark, a life long friend and supporter of McKinley, as chairman of the new club. On accepting the presidency of the organization, Mr. Clark made an eloquent and stirring address in favor of the white metal. The club set sails with a large and enthusiastic number of members."

THEY SHUDDER.

The Elks Had a Narrow Escape on the Niagara Falls Trip.

It leaked out today that the excursion train of the Elks had a narrow escape at Rochester last Saturday evening. The train was in West Rochester when the Chicago limited was due, and no orders had been sent out to either train. The error was discovered in time to send out a flagman from the excursion train, and the limited was stopped a few feet from the rear coach. A few minutes more, and the heavy engine would have gone crashing through a dozen heavily laden coaches.

CUT A CHILD'S DRESS

A Peculiar Case Found Its Way to Police Court.

ELMER FLOWERS WAS ARRESTED

He Got Ball and the Complainant Failed to Appear at the Hearing—Efforts Made to Settle—Police Thought They Had a Good Case.

The police believed yesterday afternoon the law had at last overtaken the individual who has made himself cordially hated in the city by cutting the dresses of women and girls when they were found in crowds.

The arrest was made by Chief Johnson late in the afternoon, and the man was Elmer Flowers, a presser residing on Fifth street. The happening leading to the capture occurred yesterday morning, and the victim was a seven-year-old girl. Ethel is the only daughter of Mr. and Mrs. Edward Andrews, and they live on the Wellsville road near the watering trough. The father is employed at the Kenilworth brick plant, opposite Wellsville, and is a good citizen. Ethel was yesterday morning sent by her mother to the Kountz store, a short distance from home, and was tripping along the road when she met a man on a bicycle. The stranger dismounted when near the child, and approaching her with a smile, asked for a piece of her dress. She was frightened, and succeeded in stammering a refusal. The man then produced an ordinary pocket knife, and cut a long slit in the child's dress. He continued to ply the knife until one side of the garment was cut away. Meantime the little one was crying, and the man attempted to silence her by offering her ten cents. As soon as she was free the child ran home, and the man, mounting his wheel, made away. When the child reached home she told her mother of the happening, and together they started for the store. They met the man, and the child at once recognized him. The mother at once notified her husband, and a complaint was entered before Mayor Gilbert.

Flowers stated when arrested that there was a mistake, and the child had evidently seen some other person who looked like him. He gave bond for \$100, and the hearing was set for this morning at 10 o'clock. Mrs. Andrews and her daughter identified him as the man last night, and as this became known through the city the arrest caused a sensation. When the time for the hearing arrived the Andrews family did not appear, and Flowers was allowed to go on his own recognizance. It was learned this afternoon that all parties interested were endeavoring to settle. Many people believe Flowers is not the man wanted.

ROBBED HIS FATHER.

A Youthful Spendthrift Was About to Take a Twenty.

A family residing on Avondale street have been missing various sums of money during the past few weeks, and they determined to find the guilty person. Yesterday the father of the household was deeply pained to catch his son in the act of taking \$20 from a drawer. The lad confessed he was the culprit, and said he had taken in all amounts aggregating \$40. This assertion is probably correct, as his companions say he was always liberally supplied with money. The father, it is thought, will have his thieving son sent to the Lancaster reform school.

FIEND MARLATT

Had an opportunity to Kill Governor Bushnell.

A special from Columbus contains the following:

"Ira Marlatt, the Mahoning county fiend, serving a life sentence in the penitentiary, was taken out of the dungeon today and cleaned up and two more wicked looking knives were found in his cell. It is now known that he had them on Thursday when Gov. Bushnell visited him and the wonder is that he did not try to kill the governor, as he has everyone else who has ever gone into his dungeon. It is as yet an unsolved mystery how he obtains these weapons."

APPOINTED A COMMITTEE.

The Association Will Soon Transform the George Building.

The board of directors of the Young Men's Christian association met last night and appointed a committee composed of S. T. Herbert, C. T. Hard and Oliver Vodrey to secure plans and specifications toward making the George building a first class Young Men's Christian association structure, with an auditorium on the second floor. The canvassing committee reported progress and were continued.

SUED FOR THOUSANDS.

Treasurer Cameron Wants General Riley to Pay a Big Bill.

LISBON, Aug. 27.—[Special.]—Treasurer Cameron this morning filed a suit in common pleas court against Gen. J. W. Riley, of Wellsville, in which he asks \$35,592.39. The amount, it is claimed, is due the county for taxes, and General Riley has refused to pay. Of the sum \$32,356.72 makes up taxes assessed for personal property during the past five years, and \$3,235.67 is the 10 per cent penalty allowed by the law. Should the treasurer win the case he will get the last named amount. It is understood here that General Riley will make a vigorous defense on the ground that the possessions upon which Auditor Harvey assessed the amount does not belong to him, but was merely placed in his hands for investment. The suit was the talk of the court house this afternoon.

General Riley was seen by the NEWS REVIEW this afternoon, and said:

"Yes, I have heard of the suit. This money is not my own. In fact, they have charged me with everything on the record in my name, and in all it would amount to something like a million. The property was given me as an attorney, and I don't see how I can tell the names of owners unless the court compels me. It was to bring this about the suit was brought."

FELL OFF A LADDER.

Ollie Wright Dropped Thirty-six Feet and Still Lives.

Ollie Wright fell thirty-six feet at Ohioville yesterday, but strange to relate he escaped without serious injuries. Wright was climbing the ladder of an oil derrick, and had almost reached the top when a rung he had grasped, gave way. Wright fell backwards, and in the descent turned two somersaults and narrowly missed striking a companion who was ascending the ladder. He struck the ground on his side, and was rendered insensible for some time. He recovered, and it was found no bones were broken, although the body was covered with many bruises. His escape from serious injury and perhaps death is miraculous.

NO DIVIDENDS.

But an Owner of Warwick China Stock Must Pay Taxes.

Those people who have suffered the imposition of the tax inquisitor will appreciate the feelings of a Monroe county man who owns some stock in the Warwick China company of Wheeling. Since the concern was not located in the state he did not think his stock was taxable in Ohio, and failed to return it. The inquisitor waited until he could add the 50 per cent penalty and the county treasurer could claim his five per cent, and then demanded payment. As the stock does not pay dividends, the owner looks upon it as a losing investment. The inquisitor demands payment for six years.

WILL NOT WIN.

Bryan Will be Unable to Carry His Own Ward.

Richard Manor, who but recently returned from a stay of a week in Omaha, where he attended the session of the Christian union, met a well informed man while in Nebraska. The gentleman resides in the city where William J. Bryan lives, and could speak intelligently on the situation. He said Mr. Bryan would not only fail to carry the state, but he could not carry his own ward.

NOT MANY PRESENT.

Manufacturers Did Not Turn Out in Large Numbers.

The meeting of the manufacturers last evening to consider the matter of establishing a laboratory here was not largely attended, and another meeting will probably be held soon. Mr. Thomas was present, and explained the advantages to be derived from the system. Those present were favorably impressed with what they heard, and probabilities are a laboratory will be built here.

RECHABITE REUNION.

All the Old Members Will Be Given a Good Time.

Every possible arrangement has been made to make the reunion of the Rechabites to be held on Monday evening a success, and it will not be the fault of the committee having the affair in charge if this result is not obtained. Those who are not members of the organization, but were connected with it at one time, with many friends, are cordially invited to attend.

BEHIND CLOSED DOORS

The Board of Education Settled Those Notes.

INTEREST PAID UNTIL JANUARY

On the Old Paper Held by the Banks. New Notes Renewed For Four Months. It Was All Done In Less Than Half an Hour In Executive Session.

A brief but business like session of the board of education was held last evening, and it required less than half an hour to unravel the financial tangle.

President McGraw, Clerk Norris, Mr. Vodrey, Mr. Stevenson and Mrs. Watson were present when the meeting was commenced, and no time was lost in preliminaries. Newspaper men were pleasantly but firmly informed that the board were only talking over a few little matters that needed attention, and were only for the ear of the members. The door was closed, and the meeting continued. Those troublesome notes were soon disposed of by a motion to pay the interest on the old notes to Jan. 1, of next year, and renew the new paper for four months. When this action was settled the board adjourned. Mr. McClain was not at the meeting.

The action of the board meets with the approval of the banks, and the trouble that has caused so many long sessions is at an end, at least for the present. It places the business on a basis that it will cause no more annoyance, and the work of looking after the schools can go on.

A SORROWFUL STORY

Is Told by a Salem Woman in a Petition For Divorce.

LISBON, Aug. 27.—[Special.]—A most sorrowful story told in a petition for divorce, was filed here last evening. Not quite two years ago John Fitzpatrick, superintendent of the labor department of the Salem mill, and Miss Billa Jones, the daughter of Attorney Jones, were married. She claims he has been drunk for days at a time, and associated with the lowest and most degraded of the criminal class of Salem, often bringing them to his home. Kate Marshall is mentioned prominently in the petition, and the husband is accused of having driven his wife and child from their home by threats of violence. They have one child, a daughter six months old.

GOING FOR A FORTUNE.

G. M. Adam Has Important Business in the West.

G. M. Adam will go to St. Paul next Saturday for the purpose of claiming the share of his wife in 300 acres of land. It is situated within 25 miles of St. Paul, and was originally the property of her father. Recently a railroad was built through the land, and a town now occupies 80 acres of the farm. The value of the land has increased wonderfully, and it is now worth a small fortune. Mrs. Adam and a sister are the only heirs, and because of a technicality have been unable to secure possession.

ALONG THE SIDEWALK

Dashed Postman Bevington's Frightened Horse.

Postman Bevington and his horse are before the public again. The horse was left standing in the alley near the First Presbyterian church, and decided to run. It dashed through the alley to Sixth street, and then took to the sidewalk. A lady saw it coming and in trying to get away fell, but was not hurt. The horse continued its mad flight across Broadway and up Forest street to Walnut, where it fell. It lost a little skin off its nose, but was otherwise uninjured.

PLAYED WITH MATCHES.

Now Little Helen Frew Is Very Close to Death.

LISBON, Aug. 27.—[Special.]—Helen, the five-year-old daughter of D. H. Frew, editor of the Lisbon Journal, was horribly, perhaps fatally, burned this morning. With a number of other little ones, she was playing with matches, and her dress was fired. The blaze completely enveloped her, and before help arrived she was almost burned to death. Her body and arms are in awful condition, and it is feared the little one inhaled the flame.

Entered Suit.

T. B. Murphy entered suit in Squire Morley's court this morning against Thomas Marrow for \$4.25, balance due on account. The case will be heard Saturday morning.

Born.

THE STORY OF A CABLE

How the Long Strings of Steel Will be Made.

The man then produced an ordinary pocket knife, and cut a long slit in the child's dress. He continued to ply the knife until one side of the garment was cut away. Meantime the little one was crying, and the man attempted to silence her by offering her ten cents. As soon as she was free the child ran home, and the man, mounting his wheel, made away. When the child reached home she told her mother of the happening, and together they started for the store. They met the man, and the child at once recognized him. The mother at once notified her husband, and a complaint was entered before Mayor Gilbert.

Flowers stated when arrested that there was a mistake, and the child had evidently seen some other person who looked like him. He gave bond for \$100, and the hearing was set for this morning at 10 o'clock. Mrs. Andrews and her daughter identified him as the man last night, and as this became known through the city the arrest caused a sensation. When the time for the hearing arrived the Andrews family did not appear, and Flowers was allowed to go on his own recognizance. It was learned this afternoon that all parties interested were endeavoring to settle. Many people believe Flowers is not the man wanted.

ROBBED HIS FATHER.

A Youthful Spendthrift Was About to Take a Twenty.

A family residing on Avondale street have been missing various sums of money during the past few weeks, and they determined to find the guilty person. Yesterday the father of the household was deeply pained to catch his son in the act of taking \$20 from a drawer. The lad confessed he was the culprit, and said he had taken in all amounts aggregating \$40. This assertion is probably correct, as his companions say he was always liberally supplied with money. The father, it is thought, will have his thieving son sent to the Lancaster reform school.

FIEND MARLATT

Had an opportunity to Kill Governor Bushnell.

A special from Columbus contains the following: "Ira Marlatt, the Mahoning county fiend, serving a life sentence in the penitentiary, was taken out of the dungeon today and cleaned up and two more wicked looking knives were found in his cell. It is now known that he had them on Thursday when Gov. Bushnell visited him and the wonder is that he did not try to kill the governor, as he has everyone else who has ever gone into his dungeon. It is as yet an unsolved mystery how he obtains these weapons."

APPOINTED A COMMITTEE.

The Association Will Soon Transform the George Building.

The board of directors of the Young Men's Christian association met last night and appointed a committee composed of S. T. Herbert, C. T. Hard and Oliver Vodrey to secure plans and specifications toward making the George building a first class Young Men's Christian association structure, with an auditorium on the second floor. The canvassing committee reported progress and were continued.

SUED FOR THOUSANDS.

Treasurer Cameron Wants General Riley to Pay a Big Bill.

LISBON, Aug. 27.—[Special].—Treasurer Cameron this morning filed a suit in common pleas court against Gen. J. W. Riley, of Wellsville, in which he asks \$35,592.39. The amount, it is claimed, is due the county for taxes, and General Riley has refused to pay. Of the sum \$32,356.72 makes up taxes assessed for personal property during the past five years, and \$3,235.67 is the 10 per cent penalty allowed by the law. Should the treasurer win the case he will get the last named amount. It is understood here that General Riley will make a vigorous defense on the ground that the possessions upon which Auditor Harvey assessed the amount does not belong to him, but was merely placed in his hands for investment. The suit was the talk of the court house this afternoon.

General Riley was seen by the News Review this afternoon, and said:

"Yes, I have heard of the suit. This money is not my own. In fact, they have charged me with everything on the record in my name, and in all it would amount to something like a million. The property was given me as an attorney, and I don't see how I can tell the names of owners unless the court compels me. It was to bring this about the suit was brought."

FELL OFF A LADDER.

Ollie Wright Dropped Thirty-six Feet and Still Lives.

Ollie Wright fell thirty-six feet at Ohioville yesterday, but strange to relate he escaped without serious injuries. Wright was climbing the ladder of an oil derrick, and had almost reached the top when a rung he had grasped, gave way. Wright fell backwards, and in the descent turned two somersaults and narrowly missed striking a companion who was ascending the ladder. He struck the ground on his side, and was rendered insensible for some time. He recovered, and it was found no bones were broken, although the body was covered with many bruises. His escape from serious injury and perhaps death is miraculous.

NO DIVIDENDS.

But an Owner of Warwick China Stock Must Pay Taxes.

Those people who have suffered the imposition of the tax inquirer will appreciate the feelings of a Monroe county man who owns some stock in the Warwick China company of Wheeling. Since the concern was not located in the state he did not think his stock was taxable in Ohio, and failed to return it. The inquirer waited until he could add the 50 per cent penalty and the county treasurer could claim his five per cent, and then demanded payment. As the stock does not pay dividends, the owner looks upon it as a losing investment. The inquirer demands payment for six years.

WILL NOT WIN.

Bryan Will be Unable to Carry His Own Ward.

Richard Manor, who but recently returned from a stay of a week in Omaha, where he attended the session of the Christian union, met a well informed man while in Nebraska. The gentleman resides in the city where William J. Bryan lives, and could speak intelligently on the situation. He said Mr. Bryan would not only fail to carry the state, but he could not carry his own ward.

NOT MANY PRESENT.

Manufacturers Did Not Turn Out In Large Numbers.

The meeting of the manufacturers last evening to consider the matter of establishing a laboratory here was not largely attended, and another meeting will probably be held soon. Mr. Thomas was present, and explained the advantages to be derived from the system. Those present were favorably impressed with what they heard, and probabilities are a laboratory will be built here.

RECHABITE REUNION.

All the Old Members Will Be Given a Good Time.

Every possible arrangement has been made to make the reunion of the Rechabites to be held on Monday evening a success, and it will not be the fault of the committee having the affair in charge if this result is not obtained. Those who are not members of the organization, but were connected with it at one time, with many friends, are cordially invited to attend.

BEHIND CLOSED DOORS

The Board of Education Settled Those Notes.

INTEREST PAID UNTIL JANUARY

On the Old Paper Held by the Banks. New Notes Renewed For Four Months. It Was All Done In Less Than Half an Hour In Executive Session.

A brief but business like session of the board of education was held last evening, and it required less than half an hour to unravel the financial tangle.

President McGraw, Clerk Norris, Mr. Vodrey, Mr. Stevenson and Mrs. Watson were present when the meeting was commenced, and no time was lost in preliminaries. Newspaper men were pleasantly but firmly informed that the board were only talking over a few little matters that needed attention, and were only for the ear of the members. The door was closed, and the meeting continued. Those troublesome notes were soon disposed of by a motion to pay the interest on the old notes to Jan. 1, of next year, and renew the new paper for four months. When this action was settled the board adjourned. Mr. McClain was not at the meeting.

The action of the board meets with the approval of the banks, and the trouble that has caused so many long sessions is at an end, at least for the present. It places the business on a basis that it will cause no more annoyance, and the work of looking after the schools can go on.

A SORROWFUL STORY

Is Told by a Salem Woman In a Petition For Divorce.

LISBON, Aug. 27.—[Special].—A most sorrowful story told in a petition for divorce, was filed here last evening. Not quite two years ago John Fitzpatrick, superintendent of the labor department of the Salem nail mill, and Miss Rilla Jones, the daughter of Attorney Jones, were married. She claims he has been drunk for days at a time, and associated with the lowest and most degraded of the criminal class of Salem, often bringing them to his home. Kate Marshall is mentioned prominently in the petition, and the husband is accused of having driven his wife and child from their home by threats of violence. They have one child, a daughter six months old.

GOING FOR A FORTUNE.

G. M. Adam Has Important Business In the West.

G. M. Adam will go to St. Paul next Saturday for the purpose of claiming the share of his wife in 300 acres of land. It is situated within 25 miles of St. Paul, and was originally the property of her father. Recently a railroad was built through the land, and a town now occupies 80 acres of the farm. The value of the land has increased wonderfully, and it is now worth a small fortune. Mrs. Adam and a sister are the only heirs, and because of a technicality have been unable to secure possession.

ALONG THE SIDEWALK

Dashed Postman Bevington's Frightened Horse.

Postman Bevington and his horse are before the public again. The horse was left standing in the alley near the First Presbyterian church, and decided to run. It dashed through the alley to Sixth street, and then took to the sidewalk. A lady saw it coming and in trying to get away fell, but was not hurt. The horse continued its mad flight across Broadway and up Forest street to Walnut, where it fell. It lost a little skin off its nose, but was otherwise uninjured.

PLAYED WITH MATCHES.

Now Little Helen Frew Is Very Close to Death.

LISBON, Aug. 27.—[Special].—Helen, the five-year-old daughter of D. H. Frew, editor of the Lisbon Journal, was horribly, perhaps fatally, burned this morning. With a number of other little ones, she was playing with matches, and her dress was fired. The blaze completely enveloped her, and before help arrived she was almost burned to death. Her body and arms are in awful condition, and it is feared the little one inhaled the flame.

ENGLISH GUNS TRAINED.

They May Bombard the Zanzibar Pretender's Palace Today.

ZANZIBAR, Aug. 27.—Admiral Rawson has received cable instructions from the British government and a message has also been received here by the British consul from the foreign office. As a result the admiral and the consul held another conference, at the end of which an ultimatum was sent to Said Khalid.

He was ordered to haul down his flag and surrender with his forces no later than 9 o'clock this morning. If he fails to do so the palace will be promptly bombarded by the British warships. All British subjects embarked on board the warships here by 8 o'clock this morning.

Khalid took possession of the palace immediately after the announcement of the death of Sultan Hamud Bin Thwain Bin Said and proclaimed himself sultan. He has barricaded himself in the palace with 700 armed Askaris, following the example of his father, who took the same steps, but was overthrown by a British force, which established the late sultan instead.

CAN BRING DAMAGE SUITS.

Petition For Injunction Denied the Cleveland Strikers.

CLEVELAND, Aug. 27.—Judge Stine, in common pleas court, denied the petition of the striking Brown Hoisting company's employees for an injunction to compel the company to reinstate the old men, as agreed.

The court decides that the strikers have an adequate remedy at law in an action for damages for breach of contract. The court also denies the mandatory order to compel the Brown company to take its men back on the ground that the contract is too indefinite.

Italy and Brazil in Trouble.

WASHINGTON, Aug. 27.—The recent political conflicts in San Paulo, Brazil, between the Italians and the Brazilians as a result of which there are rumors that the Italian legation to Brazil will be withdrawn may have had some connection, it is believed here, with the claims which the Italian government has against Brazil for damages inflicted on its subjects during the late civil war in that country.

IN getting up a wedding

trousseau, think how many women are tired out: Dress-makers, seamstresses, "shop-girls," milliners—all hard-worked and weary over it; to say nothing of the young lady herself. Sitting or standing all day is the hardest kind of work; it gives you no healthy well-balanced exercise; part of the body is overworked and the rest of it is under-worked. The system grows sluggish; the appetite is poor, the stomach is out of order; the bowels are constipated, you have headaches and dizzy spells. It's impossible for you to take as much out-of-door exercise in the daylight as you need. The best help you can have in the circumstances is a simple laxative medicine like Doctor Pierce's Pleasant Pellets. They will, as nearly as any medicine can, supply the want of free exercise, which is lacking in all-in-door work. They cure dyspepsia, biliousness and constipation in a pleasant, gradual, natural way. There is no griping or weakening effect with the "Pleasant Pellets"; they act surely but gently; they promote liver action, and give tone and strength to the stomach and intestines to do their own work. When you become regular the "Pellets" can be stopped. You don't have to take them forever. The cure is permanent.

Dr. Pierce's Pleasant Pellets are small sugar-coated granules; agreeable to take. Children like them. If the druggist wants to sell you some other pills that pay him better, just ask of what sort they are. You will receive a sample package free if you will send your name and address to the World's Dispensary Medical Association, Buffalo, N. Y.

THE GLAD HAND.

East Liverpool Extends a Hearty Welcome—Our Citizens Show Appreciation in Public Utterances.

Lack of appreciation is not a failing of our citizens, and the advent of the "little conqueror" was received with the same display of enthusiasm that has spread all over the Union. Coming like a ray of sunshine to every household, raising burdens that many backs have borne for years, is enough to awaken the public to praise the like of which has never before been heard in this locality. From every ward, from every street came the same report. Failure is an unknown quantity as far as the "little conqueror" is concerned, and success follows every footstep. Right here at home the triumphs have been many and have set our people talking about the wondrous workings. The following case in point should interest every reader, and it is only one among thousands:

Mr. W. F. Cochran, of Mulberry street, East End, says: "At intervals for thirty years I have had serious kidney and bladder trouble. I have suffered with all the various symptoms in their worst form. The agony I have gone through can hardly be described. Many nights I have rolled from one side to the other trying to find an easy position for my back. I could not move without having sharp twinges of pain and I was also troubled with a urinary difficulty, the secretions being very irregular and at times distressing. I have been run down that I could hardly help myself. Doctors have treated me and I have taken a power of stuff. I had given up all hope of being cured, having suffered so long and not finding anything that would give me relief more than a few days. When I saw Doan's Kidney Pills advertised as a never failing remedy, I got a box at the W. and W. Pharmacy. After taking half of it I could see some improvement. I continued to improve from that time on. Doan's Kidney Pills have done me more good than anything I have yet taken and I am quite free in expressing my opinion of them by saying that they are a good remedy for all kidney and bladder trouble."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents, or mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Trouble for the Fusionists.

The cargo of the filibustering craft consisted of 53,000 pounds of dynamite, in six-inch sticks; eleven field guns, four cannon and seven gatlings, a quantity of ammunition and nearly 200 men.

Senator Gordon Will Retire.

WASHINGTON, Aug. 27.—General J. B. Gordon, United States senator from Georgia, when seen just before his departure for Saratoga, where he is to lecture before the United States Summer Schools, said he would absolutely retire from political life at the end of his present term and continue his work of trying to reunite the north and south.

ENGLISH GUNS TRAINED.

They May Bombard the Zanzibar Freighter's Palace Today.

ZANZIBAR, Aug. 27.—Admiral Rawson has received cable instructions from the British government and a message has also been received here by the British consul from the foreign office. As a result the admiral and the consul held another conference, at the end of which an ultimatum was sent to Said Khalid.

He was ordered to haul down his flag and surrender with his forces no later than 9 o'clock this morning. If he fails to do so the palace will be promptly bombarded by the British warships. All British subjects embarked on board the warships here by 8 o'clock this morning.

Khalid took possession of the palace immediately after the announcement of the death of Sultan Hamud Din Thwain Bin Said and proclaimed himself sultan. He has barricaded himself in the palace with 700 armed Askaris, following the example of his father, who took the same steps, but was overawed by a British force, which established the late sultan instead.

CAN BRING DAMAGE SUITS.

Petition For Injunction Denied the Cleveland Strikers.

CLEVELAND, Aug. 27.—Judge Stine, in common pleas court, denied the petition of the striking Brown Hoisting company's employes for an injunction to compel the company to reinstate the old men, as agreed.

The court decides that the strikers have an adequate remedy at law in an action for damages for breach of contract. The court also denies the mandatory order to compel the Brown company to take its men back on the ground that the contract is too indefinite.

Italy and Brazil in Trouble.

WASHINGTON, Aug. 27.—The recent political conflicts in San Paulo, Brazil, between the Italians and the Brazilians as a result of which there are rumors that the Italian legation to Brazil will be withdrawn may have had some connection, it is believed here, with the claims which the Italian government has against Brazil for damages inflicted on its subjects during the late civil war in that country.

A Warning to Officeholders.

WASHINGTON, Aug. 27.—The civil service commission has issued an order to federal officeholders warning all employees against seeking or making contributions for campaign purposes. The order is sweeping in its character and effects all branches of the government service. Violators of the law will be prosecuted.

WANTED—ROOMERS FOR PLEASANT room on Fifth street, near Diamond. Inquire at 127 Sixth street, or 193 Fifth street.

IN getting up a wedding trousseau, think how many women are tired out: Dress-makers, seamstresses, milliners—all hard work and weary over it; to say nothing of the young lady herself. Sitting or standing all day is the hardest kind of work; it gives you no healthy well-balanced exercise; part of the body is overworked and the rest of it is under-worked. The system grows sluggish; the appetite is poor, the stomach is out of order; the bowels are constipated; you have headaches and dizzy spells. It's impossible for you to take as much out-door exercise in the daylight as you need. The best help you can have in the circumstances is a simple laxative medicine like Doctor Pierce's Pleasant Pellets. They will, as nearly as any medicine can, supply the want of free exercise which is lacking in all in-door work. They cure dyspepsia, biliousness and constipation in a pleasant, gradual, natural way. There is no griping or weakening effect with the "Pleasant Pellets;" they act surely but gently; they promote liver-action, and give tone and strength to the stomach and bowels, and their own work. When you become regular the "Pellets" can be stopped. You don't have to take them forever. The cure is permanent.

Dr. Pierce's Pleasant Pellets are small sugar-coated granules; agreeable to take. Children like them. If the druggist wants to sell you some other pills that pay him better, just think of what *you* pay you. You will receive a sample package free if you will send your name and address to the World's Dispensary Medical Association, Buffalo, N. Y.

The People's Common Sense Medical Adviser, by R. V. Pierce, M. D., Chief Consultant, Physician to the Invalids' Hotel and Surgical Institute, a book of 1008 large pages, over 300 illustrations, some of them in color, bound in strong paper covers, is sent to any one sending 21 cents in one-cent stamps to cover cost of mailing only. Over 680,000 copies of this complete family Doctor Book already sold in cloth binding at regular price of \$1.50.

THE GLAD HAND.

East Liverpool Extends a Hearty Welcome—Our Citizens Show Appreciation in Public Utterances.

Lack of appreciation is not a failing of our citizens, and the advent of the "little conqueror" was received with the same display of enthusiasm that has spread all over the Union. The cargo of the filibustering craft consisted of 53,000 pounds of dynamite, in six-inch sticks; eleven field guns, four cannon and seven gatlings, a quantity of ammunition and nearly 200 men.
